The chief question which is agitating the United States and the rest of the world at the present time is the League of Nations. A rough draft of the proposed league was formulated just prior to the President's return.

Above is shown the personnel of the commission that framed the league draft. Seated, left to right, are: Delegates Chinda and Makino, Japan; Leon Bourgeois, France; Lord Robert Cecil, England; Signor Orlando, Italy; M. Kra-

marz, Czechoslovakia; M. Venizelos, Greece. Standing, left to right, are: Delegates Pessoa, Brazil; Yoshida, Japan; Col. House, U. S.; Secretary of the Brazilian Legation; M. Dmowski, Poland; M. Vesnitch, Serbia; Secretary of

the Belgian Legation; Gen. Smuts, England; President Wilson; M. Diamadi, Rumania; M. Hymans, Belgium; Major Bonsall, U. S.; Wellington Koo, China; M. Reis, Portugal; M. Scialoja, Italy, and M. Larnaude, France. (© Times Photo.)

The above picture portrays one of the most painful incidents in the disastrous campaign of the allied forces, when by land and sea they sought to gain control of the Dardanelles and thus reach and occupy Constantinople. There was

no lack of men nor of ships, but the attack was premature, the preparations incomplete, and the obstacles presented by the forts, the mines, and the tides of the strait proved insuperable.

The River Clyde, a British

transport, was run on the beach, and it was sought to bridge the water that still intervened between the land and the ship. Lighters were laid as a pontoon bridge, but these became misplaced. The disembarking men

were under a fearful fire from the Turkish fortifications, and an awful slaughter ensued. The water and beach were strewn with dead and wounded before the survivors could reach shelter in their trenches.

PATRIA MORI

"A tribute to his Sacrifices"

To the Parents, Wives, Sisters and Sweethearts of the men who helped win the war—

Frank H. Simonds' History of the World War is a record of the achievements and a monument to the heroism of "your boy."

YOU may well be proud that "he" helped make autocracy, war and military oppression forever impossible; that in the most heroic and important of all human achievements, his work counted.

If he was in France—

It was possible for him to see only a small part of the struggle that flamed across Europe. Imagine how he will appreciate Frank H. Simonds' History of the World War, with its clear, complete accounts of the larger aspects of the battles in which he was engaged; with its maps and photographs of the action, its analysis of the strategy, its thrilling accounts of the campaigns in which he took part. And how much easier it will be for you to appreciate his experiences, to understand his descriptions, if you read Frank H. Simonds' History—the History that brings before you vividly and completely every phase of the World War.

If he helped the fighter fight—

If he was one of those who could not go over, yet gave unstintingly of time and effort, he will see, in these eloquent pages, how his efforts contributed to Victory, how his work helped win the war!

MR. FRANK H. SIMONDS' History of the World War is a fitting commemoration of the patriotism of all who with heart and hand made the Victory of Democracy possible—a monument to the sacrifice of the men who fought on the field of battle, and those who backed them up at home.

Why Mr. Frank Simonds is best fitted to write the History of the World War.

TO no other writer did the statesmen and generals so freely and frankly give information; no other military critic was so widely quoted or so highly

regarded as an authority. Multitudes based their opinions upon his judgment; his words governed the hopes and fears of millions.

Frank Simonds is now in France finishing this History—

Within the past few weeks General Pershing has given Mr. Simonds permission to visit any and every part of the Battle Front and has offered every assistance in compiling facts and data in reference to the American campaign.

Mr. Simonds is no arm-chair historian. He saw the horror of battle and heard the thunder of guns. He moved freely from sector to sector—for some time the only American civilian in the battle area. He was permitted by President Poincaré to visit Verdun at the height of battle—the only correspondent on that historic ground. No wonder that Col. Roosevelt, Lloyd George, Northcliffe, and other men of high authority consider Mr. Simonds' History the most valuable. No wonder that famous experts on special phases of the war have contributed to Mr. Simonds' History accounts of their activities—contributions that reveal what was going on behind the screen of secrecy. Among these contributors are:

Lord Northcliffe Henry Morgenthau
Admiral Sir John Jellicoe Hudson Maxim
Winston Spencer Churchill Rudyard Kipling
Surgeon General Gorgas Viscount James Bryce
and many others of international fame.

5 large volumes (size 10¼x7¼x1¼. 1,000 fascinating pictures that bring the panorama of all the war before your very eyes. Maps that show the course of battle. Volumes stamped in gold. Illustrations—many in color—printed on special paper. Large clear type. Good printing.

Preserve His War Service Record Permanently on this Beautiful Parchment (given Free with each set of Simonds' History).

YOU are proud of "your boy" who has served, and surely you will want to give your pride some visible and permanent form!

The Review of Reviews Company has a plan which will enable you to do so.

We will send free, on request, with each set of volumes, a handsomely embellished parchment which may be pasted into the books or framed. On this parchment the service record of soldiers, sailors, or others who have done war work may be inscribed.

What more fitting, more appropriate symbol of your pride in his service could there be than this parchment, serving as an introduction to a History of the very thing it commemorates—The World War!

As the years go by, the service record and the History will increase in value and interest, and will survive to give succeeding generations of your family a more personal interest, a deeper appreciation of what the World War meant, and what sacrifices it entailed from you and yours.

Price Increases Soon. Act Now!

WHEN, over two years ago, the Review of Reviews Company planned this important project, it contracted for paper, binding, etc., at the then low prices for a first edition of all the volumes.

A price was put on the set that was fair, in view of the costs.

Since then, cloth, paper, ink, labor—everything that goes into the making of a book—has gone way up in price. Because of these old contracts you are now able to get the Simonds' History at the present low price, if you are prompt and engage a set of this edition.

We herewith announce, however, that the subscription price of the next edition will be increased to conform with the higher costs.

Read What Famous Men Say of Simonds' History

ROOSEVELT

"MR. FRANK H. SIMONDS' History of the great war is a very remarkable work. It is not too much to say that no other man in this or any other country can quite parallel the work that Mr. Simonds has done. It is hard to say what most to admire: the really extraordinary grasp of the essential facts of the war which is shown; or the transparent clearness with which the facts are brought out; or the entire fairness and impartiality of the conclusions."

LLOYD GEORGE

"THIS History will constitute a most valuable treatise for those who at this or any future time wish to consult an independent authority on the cause of this titanic struggle."

LORD NORTHCLIFFE

"MR. SIMONDS has been right about the war more often than any of the many who have endeavored to forecast the future of this complicated catastrophe, and I say with admiration that I do not know of a better guide to the war than Mr. Frank H. Simonds."
